PRODUCTS

SECURITY SCREEN DOORS

Single and double security screen doors for existing entrance and garden doors, prevent home invasions and allow maximum air flow when entrance doors are open

SLIDING PATIO DOOR SECURITY SCREENS

Sliding security screens replace the existing screen of sliding patio doors. These screens can be combined with fixed screens to enclose a porch or a deck, creating a secured seasonal enclosure

QUICK ESCAPE SECURITY WINDOW SCREENS

Fixed and push-out dual position security screens for sliders. Maximum security... and the ability to push open the screen, allows for quick escape in the event of a fire!

CASEMENT SECURITY WINDOW SCREENS

In-swing security screens for existing casement or awning windows, swing into the home, allowing windows to open in the normal "crank out" manner

FIXED SECURITY SCREENS

Fixed security screens are suitable for all fixed or non operating windows. They prevent break-ins, vandalism and flying objects in tornadoes or high winds

REPLACEMENT SECURITY SCREENS

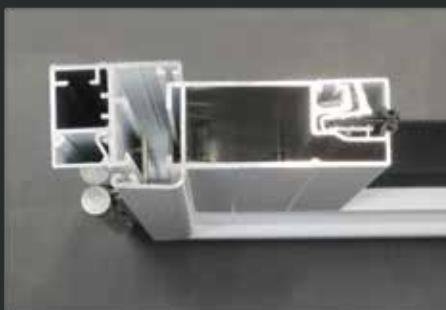

Replacement security screens replace the existing screens in slider windows, allowing the windows to remain open, thus preventing small children from falling out of the windows

FEATURES AND BENEFITS

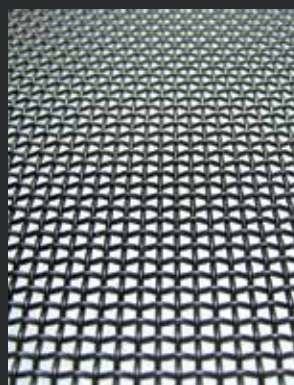

OUR SECURITY GRADE ALUMINUM FRAMES WITH STAINLESS STEEL SECURITY HINGES AND OUR PATENTED TENSION MOUNTED SCREEN SYSTEM...

- Vice like grip prevents the screen door mesh from being pulled away from the frame... creating the ultimate security screen door
- Prevents the security door from being pried open and away from the frame
- Will not rust or corrode

OUR PATENTED HIGH TENSILE STAINLESS STEEL SECURITY MESH...

- Provides protection against home invasions and break-ins
- Allows ventilation with a clear view
- Protects the existing window's glass unit from flying objects in tornado and high wind conditions
- Protects window glass from vandalism
- Cannot be cut with a box cutter or similar knives
- Screens out flies, mosquitoes, wasps and other insects
- Blocks an average of 60% of harmful UV rays
- Reduces glare and provides privacy from the outside
- Pet Proof... Dogs and cats cannot chew, tear or claw through the mesh
- Resists entry by unwanted wildlife, allowing the doors and windows to remain open
- Will not rust or corrode

OUR EUROPEAN SECURITY MULTIPPOINT LOCKING SYSTEM...

- The upper, middle and lower latches prevent the doors and windows from being pried open
